

I1000MA Almond Master Unit

I1000M White Master Unit with IREMOTE

The I1000M Master Unit has a built-in AM/FM tuner and allows local input of music sources for iPod, iPhone, Zune, mp3 players, computers, or any handheld players through an integrated 3.5mm audio jack, while charging through a USB or Firewire connection.

Sound quality can be enhanced by directly upgrading the I1000M Master Unit with I30C Ceiling or I30W In-Wall 8-Ohm 30 watt speakers. Choose between 3 listening sources (Radio, PMP, or Auxiliary Input) at the Master or any Room Station.

The I1000M system offers the latest technology in Automatic Selective Call for private communication. Communication is broadcast throughout the home, but the call becomes private once it is answered.

Room-to-room communication can be achieved with the handheld remote control by simply selecting the room number to call.

*Colors Available: White, Almond, Black, and Black with Stainless Speaker Grille*

I1000H = 14 3/8" w X 5 11/16" h X 3 1/8" d

### PMP (Portable Music Player) Bay

- Plug and Play iPod, iPhone, Zune, phones, mp3 players, or even music from a home computer through a 3.5mm plug
- Charge PMP through a USB or Firewire connection
- Choose to share PMP with the whole house by switching to "Broadcast"
- Play PMP locally at the Master Unit by selecting "Local"

With the I1000R Room Station, you can choose between three sources (Radio, local, or Auxiliary Input) in every room. Be sure to take advantage of the local source at every Room Station and play your favorite music from your mp3 player without disturbing anyone else in the home. Use the handheld remote to communicate from room to room, answer the door, unlock the door, or take advantage of the Automatic Selective Call. The Automatic Selective Call feature will automatically go to private once it is answered.

Every Room Station has an LCD displaying the time of day, source, and station frequency. The backlight can be changed to Low, High, or Off, and the Room Station can be set to private. Change the radio station from the Room Station by manually selecting the frequency, or by scanning through the 10 presets available. Each Room Station has individual volume controls for Intercom, Music, and Chime.

Improve the sound quality in specific rooms or in every room by connecting 8-Ohm speakers to each Room Station. Choose between connecting a single or a pair of I30C Ceiling or I30W In-Wall Speakers.

*Interchangeable faceplates come in three colors: White, Almond, or Black.*

I1000R Black Room

I1000R White Room Station with IREMOTE

I1000P White Patio Station

The I1000P Patio Station allows you to choose between three sources (Radio, local, or Auxiliary Input). Be sure to take advantage of the local source and play your favorite music from your mp3 player out on your patio—a great feature for pool parties! Use the handheld remote to communicate from room to room, answer the door, or take advantage of the Automatic Selective Call. The Automatic Selective Call feature will automatically go to private once it is answered.

Every Patio Station has an LCD displaying the time of day, source, and station frequency. The backlight can be changed to Low, High, or Off, and the Patio Station can be set to private. Change the radio station from the Patio Station by manually selecting the frequency, or by scanning through the 10 presets available. Every Patio Station has individual volume controls for Intercom, Music, and Chime.

Improve the sound quality by connecting 8-Ohm speakers to each Patio Station. Choose between Rock Speakers or Hanging Cube Speakers.

I1000D Door Station

The I1000D Door Station has a lighted blue bell button. There is a built-in chime on every Door Station with 4 selectable chimes for each door and the option to connect external chimes. The Door Station also features hands-free door communication with optional door release. Communication will only be heard at the Door Station that has rung and been activated for door or gate release.

*Available colors: White, Almond, Black in plastic Oiled Bronze, Antique Gold, or Nickel in Metal.*
